

## NTUG annual meeting report

The 1994 annual meeting of the Nordic T<sub>E</sub>X User Group (NTUG) was held in Oslo, Norway, the 16th of May. Invited speaker was *Kees van der Laan* from the Netherlands. He gave an elucidation of *TUGboat Blues*: The story of the development of the styles used in TUGboat and TTN. Other subjects addressed at the meeting was:

- Creating hyphenation patterns for Norwegian (Lars Gunnar Thoresen)
- How to create your own documentstyle in L<sup>A</sup>T<sub>E</sub>X (Dag Langmyhr)
- Exploration in typesetting Russian–Icelandic and Russian–Norwegian dictionaries with L<sup>A</sup>T<sub>E</sub>X 2<sub>ε</sub> (Rolf Lindgren)

The meeting was ended with a discussion of the organization of NTUG. Possible connections to other European T<sub>E</sub>X User Groups was discussed. The meeting decided that NTUG remains to be an independent group, as the special aim is to support national adaptations needed for the Nordic countries. Information about different installations, support etc. will be made available under WWW. — Per Abrahamsen, Aalborg University, has already made information about AUCT<sub>E</sub>X available under WWW at the following URL:

<http://www.iesd.auc.dk/~amanda/auctex/>

Dag Langmyhr, Oslo University, offered to coordinate further publishing of information for the Nordic TeX User Group, and a test version is available at

<http://www.ifi.uio.no/~dag/ntug/>

For the future, it was decided that Nordic meetings will be held as a special event at the annual Euro-T<sub>E</sub>X meeting.
